EXPERIENCE

DOGS, Dallas TX — *Founder*

July 2026 - Present

Systems design, Cloudflare serverless architecture (Workers, D1/D2, R2) to build social media platforms, hardware products, and client applications. Demos: https://rings-demo.dogs.red and https://wordsmith.dogs.red

City of Tulsa, Tulsa OK — *Senior Software Engineer*

June 2025 - July 2026

Updated legacy .NET C# apps, leveraging Azure DevOps. Automated document management and city workflows. Managed full SDLC: user stories, backlogs, acceptance criteria, code reviews, and PRs.

American Airlines, Tulsa OK — *Software Developer*

December 2024 - May 2025

Built GraphQL and TypeScript solutions on MEAN stack. Migrated legacy APIs to Apollo GraphQL. Managed SDLC via Azure DevOps, including backlog, user stories, QA, and more. Utilized Azure Functions and SQL for scalable, serverless backend architecture.

Industrial Piping Specialists, Tulsa OK — *Software Engineer*

November 2023 - November 2024

Modernized Java app fleet (v7 to v21) and developed Android apps. Built secure local AI PDF tools. Managed distributed systems and SDLC workflows, including backlog management and code reviews for cross-branch deployments across 50+ branch locations.

Voya Financial, Dallas TX — *Software Engineer*

May 2018 - July 2023

Onshore lead for 401K plan management app suite, using Java Spring and Angular 16+. Directed full SDLC, including user stories, acceptance criteria, and code reviews. Deployed Azure and Java microservices via Jenkins and managed issues in ServiceNow. Designed Terraform configurations for Docker container deployments and Kubernetes orchestration.

SKILLS

Cloud & IaC - AWS (EC2, RDS, S3), Azure DevOps, Google Cloud, Oracle, Cloudflare, Terraform, Helm

Frontend - Angular, React, Svelte, Blazor, TailwindCSS, Tauri

Backend - Java, Spring, Kotlin, .NET C#, PHP, Python, GO, Rust, Node.js, TypeScript, GraphQL

Database & Messaging - PostgreSQL, OracleDB, MongoDB, Redis, GraphQL, REST, SOAP, RabbitMQ, Kafka

Tooling - Git, GitHub, CI/CD (Jenkins, GitHub Actions), Postman, Docker, Kubernetes

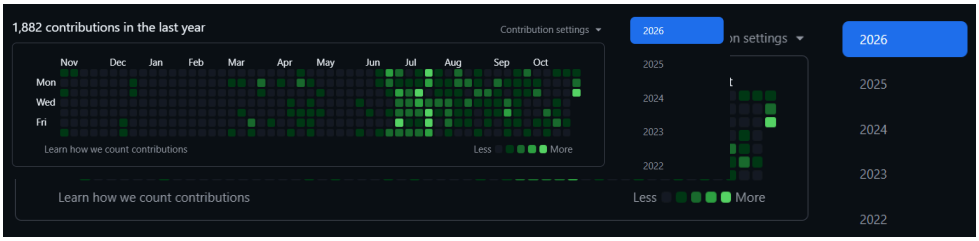

Operating Systems - Linux (Ubuntu, Debian, Arch, Kali), Tomcat, Windows Server, Android

AI - LM Studio, Ollama, llama.cpp, Azure AI Foundry, GPT Codex, Claude Code, OpenCode

Dev - AGILE, SCRUM, JUnit, Mockito, Vitest, Selenium, Jasmine, Karma, Swagger

EDUCATION

Rochester Institute of Technology, 2020
B.A.S. Applied Science
